

Harlequin CASCADE™ Classical style.

Soft yet hard-wearing, stable yet pliable, **Harlequin CASCADE™** has a slightly embossed, non-slip surface that provides extra grip and reassurance for dancers of classical ballet.

Harlequin CASCADE™ is renowned for being the most supple, stable dance floor on the market. A whole generation of directors and professional dancers have been won over by its durability. The lightly embossed surface has an excellent grip that gives dancers complete confidence, while the matt finish makes it extremely popular with lighting technicians.

Harlequin CASCADE™ can stand up to heavy stage props, scenery and lighting towers. Suitable for use as an indoor or outdoor stage floor or in the practice studio, CASCADE gives performers added protection either as a loose lay or permanent installation on top of one of our sprung floors.

For orders of 500 m² or over, we will supply in the colour of your choice.
